ABOUT THE EVENT

This workshop is intended to educate younger development professionals on how to build their capacity for resilience using many of the same strategies we use in our development programs around the world. Originally designed to help instill resilience throughout the job search (which can be long, discouraging and arduous), this content has been adapted to address the current state of our lives and world. All of us working in international development do so out of a desire to help other people. But how can we help ourselves and build strength in the face of hardship in order to best be able to help others? How can we remain positive? How can we sustain the energy it takes to continue moving forward? We will address these and other concerns. In addition, attendees will have the opportunity to reflect and reimagine their choices which impact their ability to bounce back from obstacles they may face, whether big or small, through interactive discussion.

Speaker
Kimmi Cantrell | Managing Director, Careers In Nonprofits

Kimmi Cantrell is an unrelenting optimist who is passionate about bringing love and light to the workplace. As Managing Director of Careers In Nonprofits, she spends her days connecting with nonprofit decision makers as well as job seekers, aiding both in finding solutions to their problems. Through her conversations with her team and those she serves, it has become clear that one of the biggest hurdles people face is remaining resilient in the face of obstacles. Kimmi has made it her mission to educate and empower individuals to build their personal and professional resilience capacity by sharing guidance, support, and tools for growth. In her spare time, you can find her coaching at Hot Topic All-Stars, a competitive cheer gym in Alexandria, VA. Everyone needs a cheerleader in their life, and Kimmi is here to do just that.
